

Upcoming Technical Event in Oslo:
Planning, Design and Operation of Port Terminals

March 12th, 2025, Skur 38 Oslo

PIANC Norway, Oslo Havneteknisk gruppe and Bekaert wants to welcome members, potential members and other professionals in the port industry to a technical seminar, a technical tour and an evening event with an informal dinner.

This event will be relevant for professionals from marine contractors, consultants in port and coastal engineering, port owners and suppliers of port equipment.

For members of PIANC Norway, the Annual General Meeting will also take place on this date.

Time: March 12th, 2025

Place: Port of Oslo, Skur 38, Akershusstranda 19, 0150 Oslo

Seminar fee: Free

The technical seminar and the tour will be connected to the overarching topic: "Planning, design and operation of port terminals". There will be presentations on:

- How to plan and design for electric and autonomous port terminals
- Terminal pavements, from fibre reinforced concrete and pavement blocks to asphalt
- Solutions for drainage of surface water in terminal areas with heavy loads
- Developments in sustainable materials for terminal construction

There will also be a presentation from Yilport who operates the Port of Oslo container terminal, and the seminar will be concluded by a tour of the container terminal at Sjursøya.

Sjursøya, Oslo

The final seminar program will be distributed in the beginning of February. However, it is already possible to sign up using this link or the QR code below: <https://forms.office.com/e/bNntNbrsC5>

If you have any questions, do not hesitate to contact us.
